

TIRED OF HIGH UTILITY BILLS?

BLAME THE ARIZONA CORPORATION COMMISSION!

The current Republican majority is backed by utility companies and lobbyists. Here's what they've done over the last two years:

- Voted **for rate hikes** every time including **\$460 million for Arizona Public Service**
- **Eliminated solar energy programs** for low income Arizonans.
- **Repealed Energy Efficiency Standards** that have saved Arizonans billions of dollars.

LET'S TAKE BACK THE ARIZONA CORPORATION COMMISSION!

“Republican candidates for the Arizona Corporation Commission...in favor of utility rate increases, against clean energy standards.”

Energy and Policy Institute

“The ACC should be renamed Rate Hikes-R-Us.”

Conservatives for Responsible Stewardship.

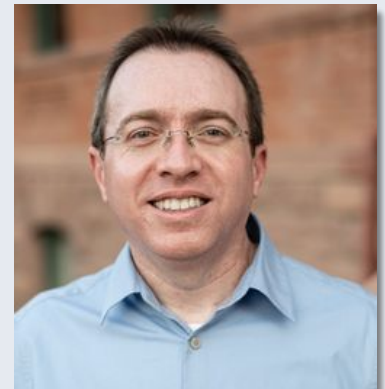

Vote for candidates who will put Arizonans first and build a clean energy future!
